

FALL ISSUE

THE SHADE TREE GAZETTE

About This Service

Today we applied our fall (round 6) application to your lawn. Cool-season (Fescue) lawns received a balanced fertilizer. This fertilizer will aid the germination of your newly seeded Fescue lawn.

Warm-season (Bermuda and Zoysia) grasses received a pre-emergent and a post-emergent herbicide. These products will prevent many winter annual weeds and will control most of the broadleaf weeds in your lawn at this time. As the weather gets cold, your Bermuda/Zoysia lawn will be going dormant. Even if your lawn is brown, it will still need our winter application to aid in the control of weeds during the winter and early spring. If you have any questions,

please call our office at (770) 536-7611, or visit our website at kinggreen.com. We'll be glad to help in any way.

DID YOU RECEIVE A TREE AND SHRUB APPLICATION TODAY?

The tree and shrub application today consisted of dormant oils and insecticide. This application utilizes oils to help minimize the use of pesticides later in the year. The oils actually smother insects and their eggs. By using a sticking agent, the oils remain on the plants longer, thereby increasing their length of effectiveness. This helps to prevent damaging populations next season.

Thank you for using *King GREEN*.

Turf Talk

It has been a weird year to say the least. Early in the year we had a fair amount of rain. However, it became a very dry summer. Also, we're dealing with an armyworm outbreak. Armyworms haven't posed any real threat in many years. In spite of it all, I can't complain. These two issues combined are not as bad as the severe drought we experienced in the preceding years.

Hopefully you had your Fescue aerated and overseeded recently. If so, you're seeing new growth at this time. We will continue to fertilize through the winter to help it establish a strong root system. Be sure to keep the leaves off it this fall. See our website at kinggreen.com for helpful information on how to do so.

Bermuda and Zoysia lawns are about to go dormant. We do not recommend that you overseed with Ryegrass. Let the grass

grow just a little bit taller than you have been cutting it, and we will apply the proper products to control the weeds and keep the lawn safe through the winter.

It looks like the economy is slowly but surely improving. Maybe we can feel a little better about things over the coming months. God bless our troops and keep them safe, as we are safe because of them. Give our leadership the knowledge and wisdom to end this thing as quickly as they can and still keep America safe.

God Bless,

Charlie

King GREENSM

Employee Profile: Chris Calefate

Chris Calefate started at **King GREEN** in May of 2003 and quickly became one of our most valuable Technicians. He is an outstanding employee and team player. Chris shows great potential and initiative. His customers in Flowery Branch and Braselton love him and appreciate his attention to detail and enthusiasm. **King GREEN** is proud to announce him as our newest Service Manager.

Chris and his wife, Christy, have been married for six years. They enjoy spending time together with their dog, Nicko. Chris looks forward to the football season every year. Go Falcons!

King GREENSM IPM

TERMITE & PEST CONTROL

HOW OUR SERVICE WORKS: On your initial service, if you have an existing problem, we will treat inside your home in addition to our standard exterior service. With modern, advanced chemicals we will maintain the chemical barrier on the exterior of your home to keep pests out. On our quarterly follow-up visits, we will re-establish this protective barrier to keep pests from re-entering from the outside. If there is ever a concern that requires additional interior treatments, they will be provided whenever needed at no extra cost.

WHAT OUR SERVICE DOESN'T INCLUDE: Our service does not include wild animals, squirrels in the attic, lawn insects and woodpeckers.

SPIDER ACTIVITY increases during the fall months. Don't let these creepy crawlers invade your home. Give us a call to schedule an appointment for our Pest Control services today!
